

Insight AI Envisioning Workshop

Scale AI Adoption across
your organisation

Business Challenge

Generative AI is one of the most talked about Artificial Intelligence innovations in recent history. As the technology evolves, businesses are seeking ways to integrate its concepts into core business processes and platforms to drive efficiencies and provide immediate return on investment.

Whilst AI has the potential to transform the workplace, it's important for organisations to identify the appropriate use cases, define return on investment metrics, and develop a strong commercial business case. Insight's AI Envisioning Workshop kick-starts AI in your organisation and identifies actionable opportunities to generate rapid return on investment and time-to-value.

How we help

With a focus on proven adoption and scalability methodology for low barrier to entry use-cases, Insight's AI Envisioning Session is designed to help your business realise the value in AI technology.

Insight's team of AI specialists will conduct a design-thinking deep dive into your data estate and work with business stakeholders to identify key AI opportunities within your business. In this workshop you will discover how to accelerate your AI journey, gain insights into responsible AI and governance, identify ongoing opportunities in your business, and leave with tailored, actionable next steps aligned to your goals.

Duration

- 1 Day

Benefits

- Identify key AI use cases within your organisation
- Accelerate AI adoption with proven successful methodologies
- Build an AI business case with target return on investment metrics
