

Why Insight for Office 365 services?

Insight is Microsoft's largest global Licensing Solution Provider (LSP) and has been providing Microsoft® solutions for more than 25 years. As one of the first Microsoft LSPs and enterprise software advisors, we put Microsoft at the center of our end-to-end strategy to help businesses run smarter. We collaborate to deliver intelligent technology solutions that meet your strategic business needs and optimise your technology investments.

Here are a few of the things we bring to the table with Microsoft:

- Complimentary and packaged Office 365™ services
- 5 million Exchange mailboxes migrated
- Remote delivery and support team
- More than 7 million Microsoft cloud seats sold
- Insight's all-in-one servicing solution for Office 365

How Office 365 will help your business

Office 365 removes limitations so you can accomplish more:

- **Get work done anywhere.** Your teams can work online or offline with up-to-date versions of the files and tools they need, on virtually any device.
- **Reduce your capital expenditures.** Office 365 is available as a simple monthly subscription. Avoid large, upfront costs for new software while moving the cost of IT from capital to operating expense.
- **Stay up-to-date.** Since Office 365 is in the cloud, it's always current. No patches or software upgrades are needed. Ever. It's that simple.
- **Cut hardware and energy costs.** You won't need to purchase servers for email, websites and document storage, reducing your energy and hardware costs.
- **License each user.** Simplify licensing and save money by providing user access to business-critical technology on up to five PCs/Mac® computers and five mobile devices.
- **Scale your business quickly.** Adding a new user is as simple as buying an additional license.
- **License what you need.** Office 365 provides multiple plans to fit the capability needs and price points for each user in your organisation.

Insight is your expert connection to the Microsoft products that make your business run smarter.
